Regulations are in effect for trapping river otters in Ohio, including season dates, zones, bag limits, and check-in requirements. This pamphlet describes the river otter trapping regulations, and what successful river otter trappers must do after catching a river otter in Ohio.
**SEASON DATES & BAG LIMITS:**
River otter trapping is permitted in certain areas of Ohio during the open river otter trapping season which is generally December 26 through the last day of February. Trappers should refer to the current Ohio Hunting Regulations booklet for season dates for river otter trapping.

**ZONES AND BAG LIMITS:**
River otters may only be trapped in certain areas of Ohio, and in limited numbers.

- **Zone A** – Closed
- **Zone B** – Bag Limit 1 Otter
- **Zone C** – Bag Limit 3 Otters

The total season bag limit is 3 river otters, of which no more than 1 river otter may be taken in Zone B.

**REQUIRED PERMITS:**
Except for landowners and their children trapping on their own property, anyone trapping river otters in Ohio is required to have a valid hunting license and fur taker permit. No additional permits are required for trapping river otters on private lands or Mead Westvaco, B&N Coal and Turkey Run public hunting areas.

Limited river otter trapping opportunity is available on state public hunting areas, including state parks and forests, and is permitted only in areas where beaver populations require active management. A special beaver/river otter trapping permit from the Division of Wildlife is required in addition to a hunting license and fur taker permit by anyone trapping these state public hunting areas, including state parks and forests, in Zone B or Zone C. Contact the Division of Wildlife district office in Akron, Athens, or Columbus for additional information.

Limited river otter trapping is permitted within American Electric Power's recreation area, known as ReCreation Land, Avondale Wildlife Area, and Conesville Coal Lands, with a special beaver/river otter trapping permit issued from the AEP Land Management office in McConnelsville, Ohio. Interested trappers should contact AEP PRIOR to October each year.

**CHECKING AND TAGGING REQUIREMENTS:**
The pelt of each river otter must be brought to a designated location for pelt tagging within 72 hours of take. River otters may be taken to a designated check station from 8:00 a.m. to 9:00 a.m. (M, W, F), or by appointment. River otters may also be taken to any Division of Wildlife district office, (M-F; 8:00 a.m. to 5:00 p.m.). Carcass submission is no longer required.

**All State Offices will be closed on holidays. Call ahead for details**
Each trapper must personally present their own river otter, and may not present a river otter taken by another person. Trappers must also provide a copy of their Fur Taker Permit at the time of checking, and provide information about the date and location in which the river otter was trapped.

**ADDITIONAL INFORMATION:**
Trappers who have reached their season bag limit are encouraged to implement river otter avoidance techniques while beaver trapping. If you catch an otter in excess of your season bag limit or in a closed zone and it is still alive, carefully release it without causing injury to yourself or the river otter. If the river otter is dead, leave it in the trap and contact the wildlife officer assigned to that county or the District Office immediately to determine the course of action to follow.
