

Project *WILD* Workshop  
O.S.U. NR 613  
March 28 & April 2

Assignment

Select one Project *WILD* Activity and consider the following. Be prepared to discuss.

Activity:

What are the important wildlife conservation concepts of this activity?

What disciplines other than science might this activity serve?

What are the principle tasks required of the participants?

How might you adapt this activity for an age group older or younger than suggested?

What other activities, *WILD* or otherwise might support or enhance similar concepts?

What is your over-all impression of this activity? How might you use or adapt it to suite your teaching style?
