

Public Dove Hunting Areas In Ohio

- Excellent dove hunting opportunities can be found at these public hunting areas. All Division-owned wildlife areas provide wildlife habitat to support outdoor activities including hunting, fishing, trapping, and wildlife viewing.
- Hunters are advised to do some preseason scouting on Wildlife Areas to select a place for dove hunting because severe wet weather during the planting season, or drought conditions can seriously impact food plot management.
- Private land all over Ohio also provides excellent dove hunting. Remember to ask for written landowner permission before hunting on private property.
- Hunting Hours: Sunrise to sunset, except for those areas (numbers 25 - 33 below) in District Five which have been posted. Those posted areas will have hunting hours from 12 noon till sunset for the first 10 days of the season.
