Controlled Deer Hunting Opportunities

Apply online for \$3 per hunt.

The application period is June 1 through July 31

The Division of Wildlife (DOW) conducts annual hunts on a number of areas that are normally closed to hunting. All applicants (adults and youth) must possess a current hunting license to apply for controlled hunts. Participation is determined by computer-generated random drawings. Applications may not be faxed or emailed. Application fees are nonrefundable. There are no restrictions on the number of controlled hunts for which a hunter can apply, however, the hunter may only participate either as a hunter or as a partner only once per controlled hunt per year.

Drawings will be held for each area and each hunt date. Drawings are held in mid-August. Applicants can view the status of their application by visiting the Wild Ohio Customer Care Center at WildOhio.gov (click on "Manage Your Customer Account" and follow the prompts). Hunters drawn from the random lottery to participate will be notified by mail. In addition to instructions for obtaining the permit, hunters drawn will receive rules and conditions specific for the hunt. Failure to follow these controlled hunt rules and conditions could result from dismissal from the hunt, in addition to criminal charges pursuant OAC 1501:31-9-01(u).

Unless otherwise noted, hunters are limited to a single deer of either-sex. In those cases where a hunter may take more than one deer, only one deer may be antlered. Regardless of method of take, season, or hunt, all hunters are limited to a single buck per season.

Unless otherwise noted, the adult hunts listed below are partner hunts. Hunters may use either the \$15 antlerless or \$24 either-sex permit. The antlerless permits may be used in all DOW controlled hunts even if the controlled hunt is outside of the effective date of use listed on the permit. However, they will only be available to purchase through the Sunday following Thanksgiving Day. Bag limits and tagging requirements apply during all controlled hunts. Deer taken during controlled hunts do NOT count against the statewide bag limit of six deer. Hunters may take a total of six deer during DOW controlled hunts. At least one of the hunters must be 18 years or older. In the case of the NASA hunts, if one of the hunters is under the age of 18, the other hunter must be 21 years or older.

The DOW offers a number of hunts for mobility-impaired hunters. These are NOT partner hunts, unless noted otherwise. Mobility-impaired hunters must be accompanied by a non-hunting attendant. The attendant must possess a current hunting license and deer permit.

The DOW is also pleased to offer a number of excellent youth hunting opportunities. To be eligible to participate in a youth hunt, youth hunters must be under 18 years of age at the time of application. Youth hunters must be accompanied by a non-hunting adult 18 years or older, and unless otherwise noted, the adult must possess a current hunting license and deer permit. To ensure the safety of all participants, adults may not supervise more than two hunters during all youth hunts. Any exceptions to this are noted under the hunt description.

A mobility impaired person is a person who:

Has a permanent or irreversible physical disability that prevents ability to ambulate without prolonged use of a wheelchair, walker, crutches, one leg brace or external prosthesis above the knee, 2 leg braces or external prostheses below the knees for mobility. Has lung disease to the extent that forced expiratory volume for one second when measured by spirometry is less than one liter or the arterial oxygen tension is less than 60 millimeters of mercury on room air at rest. Has cardiovascular disease to the extent that functional limitations are classified in severity as class 3 or 4, according to standards accepted by the American Heart Association on May 3, 1988 and where ordinary physical activity causes palpitation, dyspnea or anginal pain. Blind means either of the following: a) vision twenty/two hundred or less in the better eye with proper correction, or b) field defect in the better eye with proper correction which contracts the peripheral field so that the diameter of the visual field subtends an angle no greater than twenty degrees.

Controlled Waterfowl Hunting Opportunities

Apply online for \$3 per hunt.

The application period is June 1 through July 31

Adult, Mentor, and Youth Weekend waterfowl hunts are drawn through an online process annually:

1. Adult hunts are open to all hunters 18 years of age or older at the time of the drawing.
2. Mentor hunts are generally held on the opening day of waterfowl season in each zone and open for application for all hunters under the age of 18 at the time of the drawing. An adult(s) over the age of 18 is/are allowed to hunt as a mentor (see hunt descriptions).
3. Youth Waterfowl Weekend hunts are open for application to any hunter under the age of 16. Youth waterfowl weekend is typically held in late September or early October.

Controlled waterfowl hunts are designed to provide access and opportunity on a limited basis to listed areas. Harvest is not guaranteed on any controlled waterfowl hunting opportunity; however these hunts do provide access and possible benefits over open public hunting areas. Since the drawings are completed before the season, and successful applicants are notified of their hunting date in advance so hunters can plan ahead to hunt on the date for which they are drawn. Since the number of hunters in an area on any certain date is controlled, hunters can enjoy areas that may be less crowded than open public areas and are guaranteed a spot to hunt on the date for which they are drawn. These areas are not hunted seven days a week so disturbance may be reduced compared to open public hunting areas, which may increase the opportunity to see and potentially harvest waterfowl. All successful applicants are limited to bringing 25 non-toxic shells per hunter, per day. This limitation is put in place to encourage hunters to take sensible shots and to further limit disturbance.

Participation in controlled waterfowl hunting opportunities is determined by computer-generated random drawings. Independent drawings will be held for each area and each hunt date. Application fees are non-refundable. All applicants must possess a current hunting license in order to apply. Applications may not be faxed or emailed. Hunters may apply for each area once annually. A person who applies more than once per area risks disqualification and forfeiture of the application fee. If the same name appears on multiple applications, applications could be disqualified and the fee(s) forfeited. If you are not drawn, you will not receive a refund. You may hunt in each controlled hunt area only once per season as either the permittee or a partner.

Drawings are held in early August. Applicants can view the status of their application by visiting the Wild Ohio Customer Care Center at wildohio.gov (click on "Manage Your Customer Account" and follow the prompts). Hunters chosen to participate will receive notification in the mail in August. Notifications will include instructions to obtain the permit and the rules and conditions sheet for the hunt in which he or she has been selected. Failure to follow these controlled hunt rules and conditions could result from dismissal from the hunt, in addition to criminal charges pursuant OAC 1501:31-9-01(u).
